

McKenna Welcomes Cameron Carley as Assistant Planner

DECEMBER 21, 2020

McKenna is pleased to announce the addition of Cameron Carley to its team as an assistant planner. In his new role, Carley will be responsible for ongoing mapping and spatial analysis for numerous planning and design projects, mapping for the Village of Franklin, Mich. Master Plan Update, and 3D modeling of a future development site in Colorado.

Specializing in the use of Geographic Information Systems (GIS) to create maps for use in community planning documents, Carley joins McKenna full-time following an internship with the firm and completion of his master's degree in Urban and Regional Planning from the University of Michigan's Taubman College of Architecture and Urban Planning. Carley earned his undergraduate degree in Engineering (Civil and Environmental Concentration) with a minor in Geography, from Calvin University in Grand Rapids, Mich.

In addition to his internship with McKenna, Carley gained industry experience working throughout his schooling, including in roles as a student extern with the National Association of City Transportation Officials in New York City, transportation aide with the Michigan Department of Transportation, and GIS intern for Prein & Newhof in Grand Rapids, Mich.

"Cameron is a proven talent, having worked in lockstep with McKenna's planners and designers on master plans, codes, and other special projects since May 2019," said John Jackson, McKenna president. "We look forward to Cameron focusing his training and eye for detail and beauty—as well as his strong commitment to data-driven approaches—on McKenna's mapping and spatial analysis efforts."

Carley, a Michigander born and raised, currently resides in Livonia, Mich. He enjoys traveling, photography, hiking, and learning new languages.
